

TENCARVA

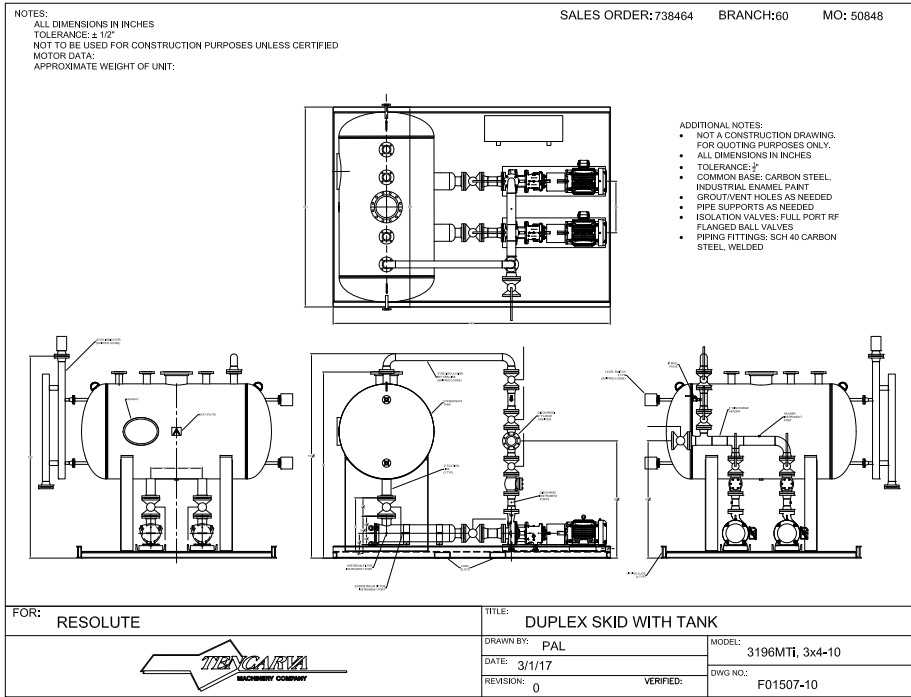

MACHINERY COMPANY

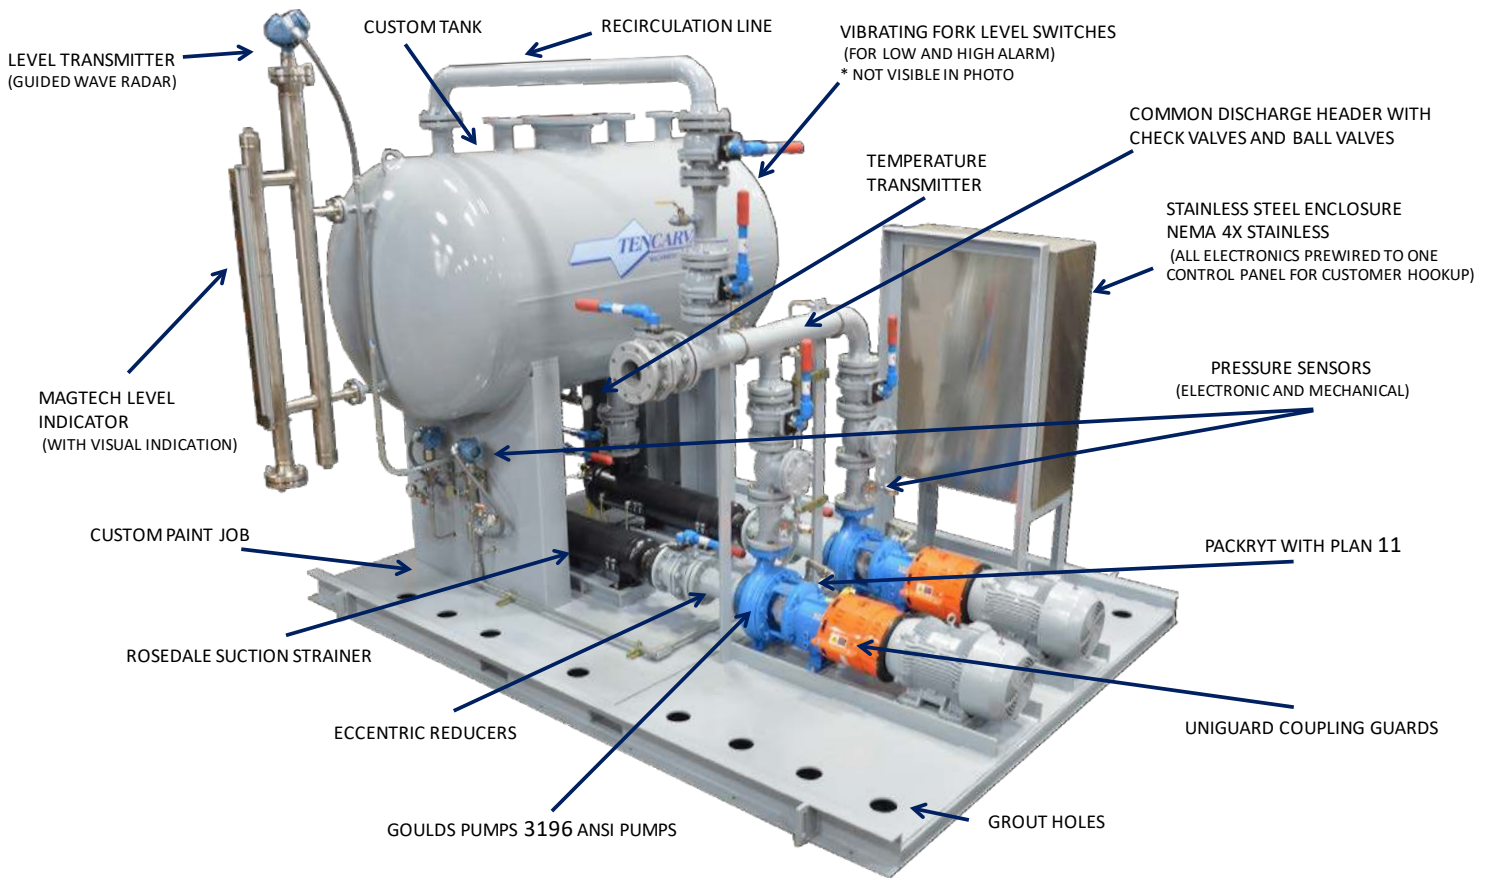

Serving all locations in the United States

DESIGN DOCUMENTATION

Tencarva's team of experienced designers can work with you to model a packaged system solution to meet your specific needs and specifications. To ensure a seamless installation, we can provide drawings to include general arrangement, piping configuration, and electrical distribution/wiring.

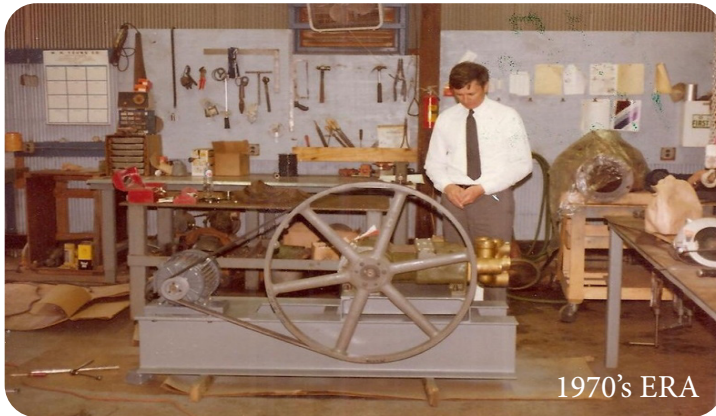

Design Documentation is available upon request for fabricated packages

FABRICATION CAPABILITIES

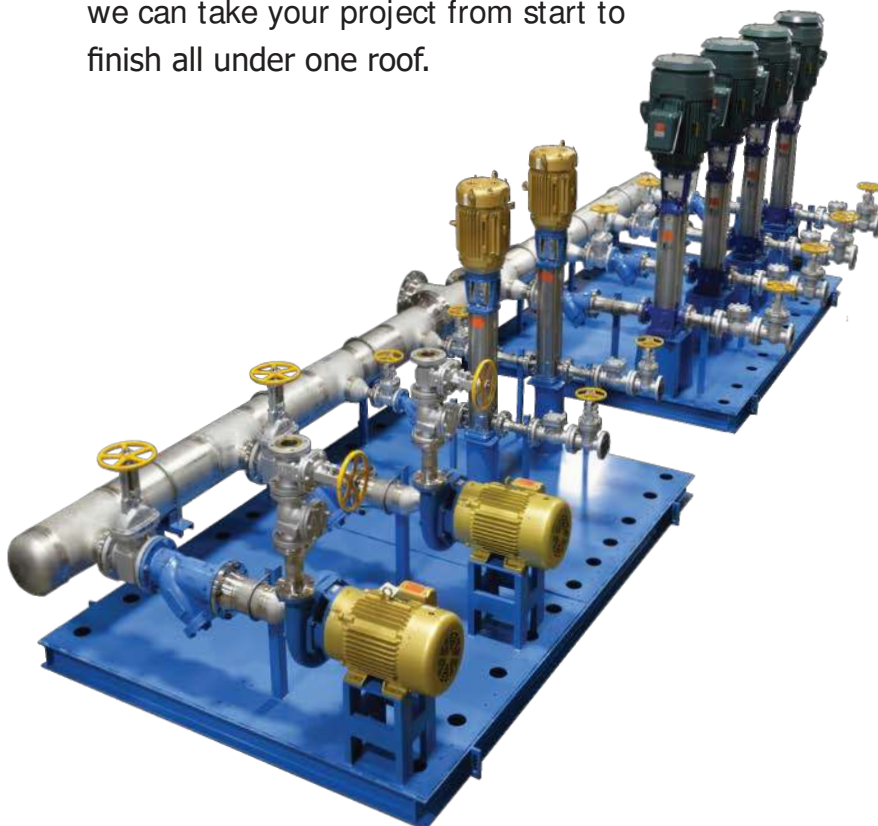

How can Tencarva Fabrication help you build the perfect solution for your facility?

The Tencarva fabrication department officially started in Richmond, Virginia 30+ years ago under Vice President Jack Miller but has fully developed in Greensboro where the company headquarters and fabrication facility are now located.

Tencarva Machinery Company is a Greensboro, North Carolina based industrial products distributor serving all our locations in the United States.

Our team provides initial planning and design as part of our industry leading fabrication process. From simple cut outs to more complex products that require aluminum fabrication, steel fabrication, weldments, or other precision processes, we can take your project from start to finish all under one roof.

Equipment Packages

Tencarva designs and builds systems to your specific requirements.

- Simplex and Multi-Plex Pump Packages
