SMART TECHNOLOGY

The POWER MONITOR is a robust power analyzer and data logger combined.

FIELD PROVEN

Our technology has been used for years around the world.

EASE OF INTEGRATION

Small unit installs into existing or new panels, is quick to set-up and compatible with all starter types, VFDs etc.

SIMPLE KEYPAD INTERFACE

Easy-to-use keypad has USB connectivity and convenient SD Card data storage.

The POWER MONITOR from Deragger Inc combines motor protection, sensing and logging in an easy to install, compact device.

INTELLIGENT EFFICIENCY
