

TENCARVA

MACHINERY COMPANY

INDUSTRIAL GEARBOX SERVICES

**TENCARVA MACHINERY
SERVICE ORGANIZATION**

Repair Services

Whether you need a solution to an existing problem, technical expertise, new gearbox or on-site services you can count on Tencarva Machinery Company to be your gearbox engineered solutions provider.

Our reputation is based on a 40+ year history of industrial process equipment experience.

Engineered Solutions

Our sales engineers understand gearbox application, life-cycle history, maintenance procedures and problems our customers often experience. We provide improved gearbox operational life-cycle by enhancing gears, bearings, seals, and other components.

When our customers processes change for increased production, and power transmission equipment can't handle the we offer upgrades or retrofits to the existing gearbox performance and life-cycle.

GearBox Manufacturers

Provide gearbox repair, rebuild and upgrade services on **all major brands** including:

- | | | | |
|-------------------|--------------------|---------------------|--------------------|
| • Amarillo | • Cone Drive | • Grove | • Radicon |
| • Boston Gear | • Dodge/ Reliance | • Johnson | • Santasalo |
| • Brevini | • Eimco | • Link-Belt | • SEW/ Eurodrive |
| • Brooks - Hansen | • Falk Rexnord | • Marley | • SPX Lightnin |
| • Browning | • Flender/ Siemens | • Nord Drivesystems | • Sumitomo/ Hansen |
| • Chemineer | • Foote-Jones | • Philadelphia | • Winsmith |

We repair many models and configuration of gearboxes and power transmissions.

Our 15,000 Sq ft. Repair Facility located in Macon, GA.

Before and After

Each gearbox is evaluated, diagnosed, and upon approval repaired to “like new” conditions.

Quality You Can Trust!
